Statistics

Bottled February 14, 2008

Cases produced: 287

I first started making Viognier to blend into my Syrah. Luckily, I had a few gallons left the first year to share with a few friends and customers. To me, Viognier incorporates some of my favorite characteristics in white wines. It has the acid of Sauvignon Blanc, the mouth feel of Semillon and the spice of Gewürztraminer.

The 2007 Viognier has a very floral nose with hints of peach, pear and melon. In the mouth it presents the clean flavors of apple, peach, and a hint of litchi fruit in its lingering finish. This is a well-balanced wine that is a good match with lighter foods, especially fish.
